Portfolio

Professional Summary

Highly motivated **AI & Data Science** undergraduate at **IIIT Raichur** with hands-on experience building scalable full-stack and AI-powered applications. Proficient in **Java, Python, C/C++, TypeScript, React, Next.js, Node.js, GraphQL**, and **WebSockets**. Strong foundation in **Data Structures & Algorithms, backend systems**, and modern software development with a focus on building performant and user-centric applications.

Education

Indian Institute of Information Technology (IIIT), Raichur

B.Tech in Artificial Intelligence and Data Science

Sept 2024 – Present

CGPA: 7.94 / 10.0

Projects

CodeReview.ai — AI-Powered Peer Code Review Platform

Next.js | TypeScript | Node.js | PostgreSQL | Redis | Claude API

2026

- Engineered an AI-powered peer code review platform capable of analyzing code quality, security vulnerabilities, scalability issues, and performance bottlenecks using multi-persona AI reviewers.
- Designed scalable asynchronous review pipelines using **Redis** and **BullMQ** for concurrent background job processing and efficient real-time feedback workflows.
- Developed interactive analytics dashboards to monitor code health, maintainability metrics, and developer improvement across iterative review cycles.

PromptBudget — AI Spend Intelligence Platform

Next.js | TypeScript | Supabase | Tailwind CSS | Claude API

2025

- Built a full-stack AI spend intelligence platform to analyze AI subscriptions, API usage, and operational costs, helping users identify overspending and optimization opportunities.
- Integrated AI-generated financial insights, forecasting dashboards, and benchmarking systems to deliver personalized cost-saving recommendations and usage analytics.
- Developed secure and scalable architecture using **Next.js**, **Supabase**, and protected API routes with responsive UI and real-time analytics capabilities.

Skills

Languages: Java, Python, JavaScript, TypeScript, C/C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, GraphQL, WebSockets

Databases: MongoDB, PostgreSQL, Supabase, Redis

AI/ML Basics: OpenAI API, LangChain, TensorFlow, Prompt Engineering

Cloud & Tools: AWS, Docker, GitHub Actions, Git, Postman, Linux, Firebase

Core Concepts: DSA, OOP, DBMS, Operating Systems, System Design

Achievements

- Solved **350+ DSA problems** on **LeetCode** with a **1450+ contest rating**.
- Achieved **Expert** on **Codeforces** (**1400+ rating**) with 200+ algorithmic problems solved.
- Earned **3** on **CodeChef** with a **1600+ rating** in competitive programming contests.

Mentorship & Programs

Amazon FFE Scholar

2025 – Present

- Selected among the top 500 students nationwide for academic excellence, technical skills, and leadership potential.
- Participating in mentorship sessions with Amazon engineers focused on software engineering, cloud systems, and industry-level development practices.

Infosys Springboard — Pragati Cohort 6

2025

- Completed a 12-week AI/ML skilling program with 100+ hours of hands-on training in machine learning and software development.

Positions of Responsibility

Member, CodeSoc — IIIT Raichur

2025 – Present

- Active participant in DSA, competitive programming contests, and collaborative problem-solving sessions.

Member, SIC Technical Committee

2025 – Present

- Assisted in organizing technical events, coding workshops, and student-focused development activities.
